How To Spray Paint Like A Pro

SPRAY PAINT FIRST TIMER? IF YOU'VE NEVER USED SPRAY PAINT BEFORE, DON'T WORRY, IT'S EASIER THAN YOU THINK.

PREPARATION WHAT YOU WILL NEED:

- Rust-Oleum Spray Paint
- Sandpaper
- Dust sheet/newspaper
- Cloth
- Masking tape

Good preparation will make the task even simpler. First, ensure you have enough paint to do the job. Check individual cans for approximate coverage rates. Secondly, find a well-ventilated workspace and cover the surrounding area to protect from spray mist.

Before you get started make sure the surface of the item you're painting is nice and smooth, dry and free from any contaminants such as dust, oil or wax. Use a damp cloth to wipe over the surfaces that you are going to paint to pick up any dust and dry with a towel.

When you're ready, just follow the four simple steps and you'll be up and running in no time.

**HOW TO SPRAY PAINT:
A STEP-BY-STEP GUIDE**

Step 1

SHAKE WELL

Before you begin, make sure you're in a well ventilated area. After reading the instructions begin shaking the can for the stated amount of time. For most spray paints it is recommended you begin counting time once the can makes a noticeable rattling sound.

Step 2

PRACTICE

Put some old newspaper down and practice your spraying technique. Note that if you go too fast or leave the can pointing at one spot too long, you'll get uneven gloss. Practice spraying in slightly overlapping stripes.

Step 3

TEST

Carefully prepare the object ensuring it is clean and dry. Prime with Rust-Oleum Surface Primer where necessary. Test the paint on an inconspicuous area of the object to be painted to ensure colour compatibility.

Step 4

APPLICATION

Carefully mask any areas of the object not to be painted. Apply the paint quickly at the recommended spraying distance, alternating between moving the can from left to right and up and down. Pause to shake the can at regular intervals during painting. Be sure to slightly overlap on each stroke to prevent striping. Apply several thin coats and allow to dry for the stated time before recoating.

RUST-OLEUM® SPRAY PAINT PRIMERS

(400ml)

These primers will ensure your chosen spray paint adheres perfectly to the surface of your project and will also increase its durability.

- Blocks stains
- Increases durability
- Interior & exterior use

MAKE IT YOURS

WIN!

£250

TO BE WON

every month

Every month we offer our customers an opportunity to win **£250**. To be in with a chance of winning all you need to do is send us before & after photographs of a project you have completed with Rust-Oleum brush or spray paint. Where possible, please include the can of paint in the photograph. Each month our panel of judges will select the most original and creative projects. The winning project will win **£250** and ten runners up will each receive a bumper pack of **Rust-Oleum paints**.

To enter simply visit www.makeit yours.co.uk and follow the **Make It Yours** competition link.
