

LAURA ASHLEY

SINCE 1953

Created using the richest pigments for depth of colour and even results. The Laura Ashley paint collection has been meticulously tested to ensure consistency of colour and stunning results which beautifully complement our wallpaper range.

All Laura Ashley paints are water-based, low odour, and ultra low in Volatile Organic Compounds (VOCs). Our paint is also breathable, which means it allows moisture to easily flow through the surface to reduce condensation, mould and mildew, and ensure a perfect lasting finish.

SAMPLE POTS

100ml sample pots are available in all 70 of the Laura Ashley matt emulsion paint colours. When choosing a colour we recommend you purchase a tester pot and paint an A4 swatch rather than directly onto the wall. This will enable you to move the swatch around the room to ensure you're happy with the colour in different lights.

Number of Coats	2	2	2
Drying Time	1-2 hrs	1-2 hrs	1-2 hrs
Typical Recoat Time	4 hrs	4 hrs	4 hrs
Walls & Ceilings	Yes	Yes	Yes

EGGSHELL

A high quality water based eggshell finish emulsion, suitable for internal surfaces and woodwork, providing a tough, washable and easy to maintain surface

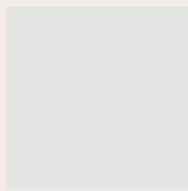

Available in 70 Colours.

Available Can Size	750ml
Max Coverage m ² <small>(approx)</small>	10m ²
Number of Coats	2
Drying Time	2-3 hrs
Typical Recoat Time	12 hrs
Interior Woodwork	Yes

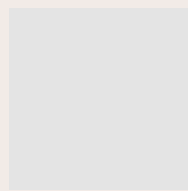

PRIMER

A high quality water based bonding primer for wood, mdf, metal, melamine, pvc & ceramic tiles

Using a primer is the best way to ensure a flawless finish with any of our trim paints. Our Primer & Undercoat is quick drying, fills in minor imperfections and has excellent hiding power meaning it assists with the topcoat adhesion and helps to promote a smooth, even finish.
