NEW IMPROVED MOULD
AND ALGAE RESISTANCE**

DEFEND YOUR HOME AGAINST MOULD AND ALGAE

Dulux Weathershield is a smooth masonry paint with ultimate durability specially formulated for Irish weather. Now with a new improved formula that helps defend and protect against mould and algae growth** for a freshly painted look that stays cleaner for longer.

**Contains a fungicide to inhibit the growth of mould and algae within the paint film and helps it stay looking cleaner for longer. Our new formulation is three times more effective than our 2020 formulation.

FIND YOUR PERFECT COLOUR TRIO

Choosing a colour scheme for your home is now easier than ever.

With colour trios, you have three proven colours that work with the features of a traditional or modern home to give you a beautiful colour scheme.

Each trio gives you greater confidence when decorating the exterior of your home as you can rest assured they look great in any weather.

Try out our free Let's Chat Colour consultation to chat about your project. Simply DM us via @duluxIreland on Facebook or @duluxirl on Instagram to book a time and date for a call.

TRIO IN ACTION

IRON CLAD
Front Door

3 STEPS TO CHOOSING YOUR TRIO COLOUR SCHEME

1. Choose the colour for your exterior walls from the largest colour chip.
2. As a general rule, the lightest tint in a trio can highlight decorative details like window reveals and quoin stones.
3. The deepest shade is the most practical for the plinth and sills and also helps ground the scheme.

KEY TIPS FOR SELECTING YOUR MAIN COLOUR

Homes with natural stone or timber windows can take warm contemporary colours that are greyed off and have a green undertone.

Earthy colours with a warm or yellow undertone work beautifully with traditional houses in natural stone while neutral tones with low contrast elongate bungalows.

Modern homes with black, grey or white window frames or built with limestone are ideal for cool neutrals that sit between blue and grey.

HOW TO PAINT A FRONT DOOR

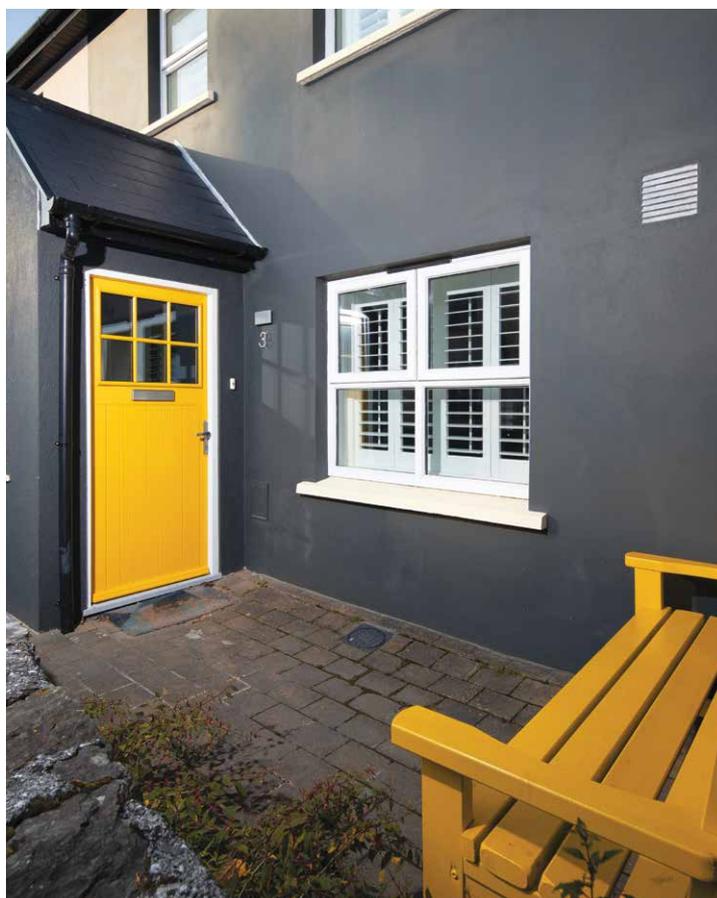

Welcome visitors to your home with a freshly painted door that makes a great first impression, transforming your exterior instantly.

It's the perfect weekend project and only takes a matter of hours. What's more, it gives your home a new look in the most cost effective way.

Painting your front door a daring new colour can revamp its appearance quicker than you may realise. Here we outline how to redecorate a pre-painted door with water-based products.

EASY TO ACHIEVE

Change your entrance for the better in five easy steps. For more information on other door types and suitable products, visit weathershield.ie or youtube.com/duluxireland for our how-to videos.

STEP 1

Begin by sanding the door surface thoroughly to create a rough surface known as a key. Repair any damage using suitable filler. The surface must be clean and dry.

STEP 2

Remove any door furniture and use masking tape to cover any elements that have to stay put.

STEP 3

Apply one coat of Dulux Weathershield Quick Dry Exterior Undercoat for excellent coverage and opacity using an acrylic bristle brush.

STEP 4

For a water-based finish, choose Dulux Weathershield Exterior Satinwood, Dulux Weathershield Quick Drying Exterior Gloss or Exterior Satin. All are low odour, acrylic-based and better for the environment.

STEP 5

Finish by applying two coats of your preferred top coat in your chosen colour. Leave to dry for four hours before you apply the second coat.

REFRESH YOUR BUSINESS

Whatever type of enterprise you have, Dulux Weathershield offers a choice of bespoke shades to help you create a colour scheme that sets your business apart.

Look to the future with optimism and take inspiration from these exterior looks. Discover new colours for your premises in our bespoke range on page 11.

PREPARATION IS KEY

Correct preparation with the Dulux Weathershield system ensures the job is done right the first time

STEP 1 | Preparation Products

Fungicidal Wash

Kills mould, algae and lichen and protects against regrowth

Stabilising Primer

Seals powdery and chalky surfaces to give base for masonry paint

Alkali Resisting Primer

Primes alkaline plastered surfaces with excellent stain resistant properties

STEP 2 | Masonry

Ready Mix and Bespoke Colour

New improved mould and algae resistance** | Superior flexibility for all weather protection | Superior colour retention | Fast shower resistance*** | Protection against cracking and flaking | 38 ready mix colours on shelf | 850+ colours mixed instore.

STEP 3 | Front Door, Wood & Metal

Weathershield Exterior Satinwood

Weatherproof | Quick drying, tough and durable | Water-based formula | 15 ready mix colours available | 620+ colours mixed instore.

Dulux High Gloss

Exterior and interior paint | 17 ready mix colours available | 12,000+ colours mixed instore.

STEP 4 | Make sure you have everything you need

- | | | | | | |
|----------------------------------|----------------------------------|-------------------------------------|---------------------------------------|--|---|
| <input type="checkbox"/> Paint | <input type="checkbox"/> Scraper | <input type="checkbox"/> Hard Brush | <input type="checkbox"/> Filler | <input type="checkbox"/> Drop Cloths | <input type="checkbox"/> Roller & Tray |
| <input type="checkbox"/> Brushes | <input type="checkbox"/> Ladder | <input type="checkbox"/> Sandpaper | <input type="checkbox"/> Masking Tape | <input type="checkbox"/> Fungicidal Wash | <input type="checkbox"/> Stabilising Primer |

Contains a fungicide to inhibit the growth of mould and algae within the paint film and helps it stay looking cleaner for longer. *Shower resistance was carried out in Dulux Paints Ireland laboratories in an environment above 7 degrees celsius - one shower of 80-90 grams of water was sprayed over an area of 1 sq.m.

2022 Colour Card. For technical reasons connected with the printing process, the representation of the colour in photography may not exactly match the colour in the can. The colour chips on the centre section of the card will be much more accurate but slight variations between batches of paint may occur. Where more than one tin of paint is required, check that the batch numbers are identical and if not intermix before use.

Dulux, Weathershield, Cuprinol, Garden Shades, Let's Colour, the Dulux dog and the distinctive colour names are trade marks of the AkzoNobel group. © AkzoNobel 2022
