27 top exterior paints

WELCOME

Few brands can claim to serve the same purpose today as they did when they first appeared in the market. Sandtex has stayed true to its origins and continues to offer the same premium paints as it did when it first went on sale in 1961.

We're sure you'll find just what you need for your exterior project here. But where to start? Well, lets see what we have to offer first.

COLOURS FOR WALLS

- o 15 year proven protection
- o Dirt resistant
- o Waterproof
- o Extra durable
- o Creamy smooth formulation

Black		

BE PREPARED - GET YOUR WALLS READY

STEP 1

Plan: Work out the amount of paint you will need so you don't run out. Try out our paint calculator at www.sandtex.ie.

STEP 2

Tools: Make sure you have all the tools you need, ladder, brushes & rollers, a roller tray, gloves and a dust sheet to protect the ground.

STEP 3

Clean: Remove all dirt dust and loose material. Treat organic growth with Fungicidal Solution, clean off all the walls, a pressure washer will give best results.

**TOUGH
OUT
TIPS**

Never cut corners, a little longer on prep saves in the long run

STEP 4

Stabilise: Once your walls are dry check the surface for any chalky areas and seal the surface with Stabilising Solution.

STEP 5

Repair: Fill cracks Masonry Filler. Using a knife or spreader fill the crack and allow to dry. Sand smooth before painting.

STEP 6

Final check: Check the weather forecast, your walls will need to be dry before you start and you'll need to allow 3 - 4 days, assuming a team of two, for an average house. Move the car and protect the drive and you're good to go.

CHOOSING COLOURS

Depending on the size and design of your house, you should consider up to three colours, one for your mail walls, one for sills, plinths or accent walls and a third for your wood and metal work.

BIRCH

A neutral stone shade. Available in smooth masonry.

WATERVILLE

On trend botanical green. Available in smooth masonry.

SMOKEY GREY

A classic stone grey. Available in 10 Year & Rapid Dry Gloss.

ULTRA SMOOTH

TOUGH OUT TIPS

**THE
ROYAL
TREATMENT**

TOUGH OUT TIP

- o Light colours can make a detached home look larger, warm colours can reduce size.
- o Sunny settings can take cooler colours, north facing houses need warmer hues.
- o Consider your neighbours. Isolated houses can take strong colours, as can a busy terrace. Semi detached homes should complement one another.

GRAVEL

Available in smooth masonry.

VERMONT GREY

Available in smooth masonry.

OXFORD BLUE

Available in 10 Year & Rapid Dry Gloss.

TOUGH OUT TIPS

STAND
OUT

TOUGH OUT TIP

- o Start painting walls at the top, paint in sections working from right to left or left to right. Work your way across the house, first the top, then the middle and finally the lower part.
- o Follow the sun, this will ensure that the surfaces are free from dew, but try not to paint in direct sunlight as this can lead to blistering whilst drying.
- o Always paint when the temperature is above 8°C to ensure the paint will dry effectively.

SANDSTONE

Available in smooth masonry.

SOFT WHITE

Available in smooth masonry.

CLOUDY DAY

Available in Rapid Dry and 10 Year Satin.

DON'T FORGET THE BRICKWORK

TOUGH OUT TIPS

Complement red brick with neutral stone colours like Pebble Beach or Mid Stone

Brickwork remains popular on Irish homes, whether it's a fully brick built house, or has brick or stone features. Just like your plastered walls, your brick or stone work needs protection from the elements. Brickwork Waterproofing and Protector is a ready to use silicone sealer forming a water repellent barrier, protecting against damaging effects of rain, frost and ice.

COUNTRY STONE

A popular classic, available in smooth masonry.

BITTER CHOCOLATE

Ireland's favourite wall trim, available in smooth masonry.

ALL THE TRIMMINGS

TOUGH OUT TIPS

Rapid Dry Plus Gloss or Satin is quick drying so lets you get the job done in a day.

KERB APPEAL

Details count – so don't forget about your exterior wood and metal work. Paint your front door to give instant kerb appeal to your home. Why stop there, features such as cast iron gutters and drainpipes, lanterns and railings contribute to the overall appearance of your home.

COTTON BELT

A delicate off white available in smooth masonry.

SMOKEY GREY

A rich warm grey tone, available in Rapid Dry Gloss and 10 Year Satin.

DON'T REPLACE... REJUVENATE

TOUGH OUT TIPS

GIVE YOUR PVC A NEW LEASE OF LIFE

OK, so most of us have PCV windows, or conservatories and my don't they get grubby fast. Whether you're at the coast or in the country you'll soon find a build up of mold and grime. But, fear not, Sandtex PVC spray cleaner will quickly get it gleaming. For more ingrained dirt and scuffs, PVC restorer will clean it up. Once you're spick and span, why not consider a colour change, PVC primer will give a sound base coat to let you repaint with a gloss or satin finish.

15 year proven protection on all exterior masonry paints

10 year proven protection on all exterior wood and metal paints
