Planning your GoodHome Atomia storage

Atomia cabinets form the building blocks of your new storage. Cabinets come in five heights (each one a multiple of 375mm), three depths and four widths.

Once you've measured your space, start by finding the depth that works for you. Then choose the width and height of the cabinets according to what you want to store.

Atomia cabinets can be wall mounted or freestanding, with or without adjustable feet. When adding feet, always remember to include this in any measurements.

CREATE SPACE WITH SLIDING WARDROBES

Small rooms, large rooms, alcoves, lofts and all the awkward spaces in-between! Choose a wardrobe made for every home.

No space wasted inside alcoves.

Build around doors and windows.

Made for under eaves.

FREE UP YOUR FLOOR SPACE

A floor-to-ceiling solution that gives you more storage on the inside so you can free up space on the outside.

Hinged wardrobes can restrict movement in a room. Their fixed sizes mean storage is limited, with additional items being needed, only to take up more space!

Floor-to-ceiling sliding wardrobes create more storage, allowing you to put everything in one place.

Can B&Q let me know the time of my delivery?

Some of our delivery partners may contact you in advance by phone or by text message and may let you know either an estimated arrival time or confirm an am/pm delivery slot. If this applies to your order, we'll let you know before you check out and in your confirmation email.

When will my home delivery order arrive?

For the majority of products on diy.com, we'll either be able to let you know, or let you choose, a delivery date before you check out. For all other products, we'll let you know that we'll be in touch by phone or text message to arrange a delivery date. Deliveries will be made between 8am and 6pm.
