Swim spas

A perfect way to swim every day. With hydro-massage seats, a dedicated swim area and powerful jets so you can enjoy the fluidity of a swim current adjusted to your personal swim level.

Standard features

Powerful swim lane jets

Jets deliver a powerful continuous stream of water to aid straight and level swim.

Build quality

The spa shell uses Lucite® acrylic for strength and durability.

Galvanised steel frame

Sturdy galvanised steel frame cradle for supporting the swim spa.

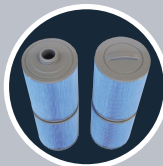

Raised floor

Raised floor at the spa end ensures comfortable and secure seating.

Swim trainer

Resistance bar and harness for a rigorous workout.

200ft² microban® filtration

Microban® antimicrobial protection inhibits the growth of bacteria and extends the filter's life cycle.

Cost effective

Good insulation equals lower running costs. Most heat generated by the spa is reused efficiently.

Canadian Spa Company customer service*

In the unlikely event that you experience an issue, Canadian Spa Company provide multiple channels for contact.

To create a ticket or find further service solutions visit:

**support.canadian
spacompany.com**

A specific ticket number will then be assigned to the issue, which enables Canadian Spa to have all information in one place, from order status, any outstanding service issues to previous customer history. Based on the issue, Canadian Spa then either send one of their local technicians or ship the replacement part to you. This is followed up with an email to confirm that the job was completed to your satisfaction.

Service

Canadian Spa technicians have many years of experience in dealing with plumbing and electrical faults on many makes of spas and they operate over the whole of the UK and Ireland.

Canadian Spa recommends a full service once a year to make sure your spa pipes are clear of contaminants and that any leaks are found early before major damage is done.

This will ensure that the spa components are working efficiently to provide you with the best spa performance.
