Choosing your fire

From fuel to flues, there's a few key things to consider when choosing your perfect fire setup. Here's a breakdown of the different elements to help you get started.

1. Which type of fuel will you use?

Gas

Clean, efficient and entirely smokeless, gas is a great way to heat your home.

Look out for the green gas logo for our most energy-efficient options, helping you control your energy bills.

All gas fires must be installed by a Gas Safe registered engineer. For more information visit gassaferegister.co.uk

Electric

Quick and easy to install, electric fires give you the freedom to enjoy the ambience of flames – with or without the heat. Plus, because they're powered by electricity, you won't need to worry about adding ventilation – you can simply plug in and go.

Solid fuel

Great for creating a traditional feel, solid fuel fires like wood and coal give you the warmth and comfort of a real fire, perfect for those cold winter months.

All solid fuel fires must be fitted in accordance with the latest regulations.

Choosing the right fuel for your solid fuel stove or open fire

When choosing the right fuel for your solid fuel stove, you'll need to think about the environmental regulations in your local area. As part of the 1956 Clean Air Act, the UK introduced smoke-controlled areas, prohibiting households and businesses in certain locations from releasing smoke from chimneys. If you're unsure whether you live in a smoke-controlled area, please search online for the latest advice from DEFRA or call 03459 335577.

- In smoke-controlled areas, you'll need to use approved smokeless fuels. If your appliance is a wood-only burner, it must be certified as DEFRA-exempt and only be used to burn dry wood with less than 20% moisture. Kiln-dried wood is ideal for these types of stoves.
- For coal fires, consider using a smokeless product to reduce the amount of air pollution emitted.
- Regardless of your location, the most effective and environmentally friendly way to burn wood fuel is to make sure the logs are as dry as possible. To achieve this, it's best to store them in a log store or a covered area with plenty of air circulation.
- It's now a building regulation to have a carbon monoxide (CO) detector fitted in the same room as a solid fuel stove, log burner or open fire. However, for peace of mind, we recommend fitting one no matter what type of fire you have – old or new.

2. Which chimney or flue type do you have?

| Chimney or flue |  Brick or stone (Class 1) <ul style="list-style-type: none">• Older properties, typically pre-1960s• Traditional chimney, usually rising up out of the rooftop. |  Pre-fabricated flue† (Class 2) <ul style="list-style-type: none">• Newer properties built after 1960s• Metal flue pipe on the roof. |  Pre-cast <ul style="list-style-type: none">• Newer properties• Raised ridged tile or metal flue pipe on the roof• Shallower in depth than a traditional chimney. |  No chimney <ul style="list-style-type: none">• No chimney |
|---|--|---|---|--|
|  Gas | ● | ● | ● | ● |
|  Electric | ● | ● | ● | ● |
|  Solid fuel | ● | | | |

3. Choosing your fireplace

One-box solution

Everything you need to add a stunning fireplace to your space – all in a single box. Choose from our range of electric fireplace suites (page 14), or opt for a sleek electric or gas wall-hung fire (page 36) or stove (page 50).

Mix and match

Alternatively, choose from our range of stoves or inset fires and pair with a surround set to get the look you want.

For full customisation, create your own fireplace by selecting your fire, then adding a surround, back panel and hearth to build your own unique look. For inspiration, explore our mix and match section on pages 80-85.

If you are unsure about the suitability of a fire and your intended location for it, you should check local building regulations. If in any doubt, or where required by law, consult a competent person who is registered with Gas Safe or an electrical self-certification scheme. †Some metal flue boxes are a wider 7", meaning you can also have a Class 1 fire. Some fires in this brochure are primarily designed to provide top-up heat and are not intended as a primary heat source.

HOW TO BUILD THE PERFECT MEDIA WALL

STEP 1

Build timber frame

STEP 2

MDF or Plasterboard

STEP 3

Add LED lighting strips*

STEP 4

The best part, enjoy!

*Only if desired
More installation details can be found in the product manual.

The beauty of a real fire, the simplicity of electric.

The world's most realistic 3D electric flame effect, patented by Dimplex

Optimyst is the world's most realistic 3D electric flame effect for those looking for a truly authentic experience, combined with the safety and low maintenance of an electric solution.

Patented by Dimplex, it offers a flame experience that can be enjoyed from all angles, making it perfect for stunning room dividers and see-through fireplaces.

This unique flame effect is generated by an innovative combination of water vapour and light.

Optimyst is available in a selection of fires across freestanding models, insets, wall mounted fires and complete suites to enhance the ambience of any home. Please see these products featured in the relevant sections of this brochure.

Experience Better Living

Why choose Optimyst?

Unique Optimyst effect

An authentic and unique three dimensional flame and smoke effect created by lights reflecting against ultra fine filtered water mist.

2kW heat output

Offering up to 2kW of heat via a fan heater.

Choice of 2 heat settings

A choice of 1kW or 2kW heat output helping control running costs.

Thermostat

Maintain your desired room temperature with the built-in thermostat.

Remote control

Operate the fire from the comfort of your armchair.

Fuel beds

Complete the look of a real fire with a log effect or coals fuel bed.

Flame effect only

Enjoy the ambience of the flickering flame effect any time without the heat.

Easy to use

Quick & easy to install - plug in, top up the water tank and you are ready to go.

Design choice

Choose the model for your home from insets, stoves, suites & wall-mounted designs.

Optiflame[®]

**Embrace Comfort
without Compromise**

Optiflame is the original Dimplex electric flame effect, and revolutionised the electric fire market when first launched in 1988.

It creates a mesmerising and lifelike flame that provides warmth and ambience in any room, with complete safety and the peace of mind of a maintenance free electric solution.

Endlessly refined and continually evolving, Optiflame remains the world's most popular electric flame technology.

Please see our range of Optiflame products featured in the relevant sections of this brochure.

Gas stoves

These gas fires give you all the warmth of a traditional stove – without the added fuel costs. Simply connect it to your gas supply and enjoy real flames at the switch of a button. All our gas stoves are Class A energy-rated, with catalytic technology and incorporated safety features. No chimney, flue or hearth required. Gas fires should always be installed by a Gas Safe registered engineer.

- Heat output up to 3.1kW
- Upward-facing convected
- Log effect fuel bed
- Minimum room size 35m³.

Terms and conditions

Ordering and delivery

Available for home delivery
Selected items are available to order for delivery direct to your home. Available for selected locations. Restrictions apply. Delivery charges may apply. See [diy.com](#) or see in store for further details. When buying at [diy.com](#) we'll tell you the delivery time during the checkout. Please ask about delivery times when ordering in store.

Store delivery service
If you're not able to get your items home from store, why not use our store delivery service? This service enables you to have your items delivered to the ground floor room of your choice in your home. Ask your local store for details on their delivery area. Charges may apply.

Ordering and delivery FAQs

Will all of my home-delivered items arrive together?
You can select the same delivery date for several products at the checkout at [diy.com](#). However, items delivered by different partners may arrive separately and at different times.

Do you deliver to my address?
We're currently unable to deliver online orders to the Republic of Ireland, Jersey, Guernsey, Isles of Scilly, Scottish Islands (including Isle of Skye, Isle of Arran, Isle of Colonsay, Isle of Cumbrae, Isle of Jura, Isle of Coll, Isle of Eigg, Isle of Rum, Isle of Canna), Orkney Islands, Outer Hebrides and BFPO addresses.

Bulk products will be delivered to the kerbside outside of your address. You'll be advised at the checkout if this is the case, and you'll be responsible for moving these items onto your property.

Can B&Q let me know the time of my delivery?
Some of our delivery partners may contact you in advance by phone or by text message and may let you know either an estimated arrival time or confirm an am/pm delivery slot. If this applies to your order, we'll let you know before you check out and in your confirmation email.

When will my home delivery order arrive?
For the majority of products on [diy.com](#), we'll either be able to let you know, or let you choose, a delivery date before you check out. For all other products, we'll let you know that we'll be in touch by phone or text message to arrange a delivery date. Deliveries will be made between 8am and 6pm.

When can I collect my Click + Collect order?
If you order before 7pm Monday to Friday or 4pm Saturday and Sunday, your Click + Collect order will be available from 1pm the next day in your chosen store.

Please note that in some stores your order will take two days to be ready and can then be collected after 6pm (this includes stores in Northern Ireland and on the Isle of Man, please see [diy.com/click-collect](#) for the full list).

Find out more about when your order will be ready for collection on our Click + Collect page at [diy.com/click-collect](#)

If you don't collect your order straight away, we'll hold it in store for you for 7 days. If it's not been collected after 7 days, one of our team will be in contact with you.

Where do I collect my Click + Collect order from?

Your Click + Collect order will be available at the Click + Collect point in your chosen store. Look for the Click + Collect signs in the checkout area.

About our products

All products are subject to availability.
All prices are correct at the time of going to press and may be subject to change. Whilst we try to ensure accurate colour representation, please be aware that the photographic process may sometimes alter colours. Some items in our photographs are included for display purposes and are not necessarily intended to be installed as shown with regard to proximity. Please refer to the instructions supplied with your product before installation. A summary of this price guide is available in Braille, large print or on audio cassette. Please ask at your local store for more details.

Finance

Open a FlexiPlan credit account and use it for everything you need from B&Q for your home improvement projects when you spend £75 or more. There's one application, one credit limit, and multiple repayment options. Please see [diy.com/flexiplan](#) for more information or speak to a colleague in store. Credit available on purchases between £75 - £25,000. **17.9% APR representative.** Interest-free options available on purchases over £1,000. Terms and conditions apply. Availability of credit is subject to status. **B&Q Limited acts as a credit broker and not as a lender and offers credit products from more than one lender. The credit advertised here is provided by Creation Consumer Finance Ltd.**

Doing your bit

The UK's Waste Electrical and Electronic Equipment (WEEE) regulation aims to ensure the waste of electrical and electronic equipment is disposed of in an environmentally friendly way. You can take back any unwanted small electrical products, or if you've purchased a larger, like-for-like product from us, to a B&Q store free of charge. Where you've purchased a large like-for-like electrical product from us within 28 days, we can collect it for a fee per item by calling 0333 014 3529. Visit [diy.com](#) for more details.

Returns policy

Please keep your receipt for anything you buy from us. It'll ensure we can help you if you need to bring something back.

If you return a product unused, with the original receipt within 90 days of purchase (or delivery where applicable) we'll exchange the product or issue a refund based on the original method of payment. For purchases made by debit/credit card, the same card must be used to process the refund. B&Q customer sales forms are an acceptable form of receipt.

Products that have been cut, made to measure or mixed to your requirements cannot be exchanged or refunded.

Your consumer rights are not affected
If the product you purchase is faulty, or not as described, we may offer an exchange, refund or repair as appropriate, in accordance with your consumer rights.

Ways to return your items
In the first instance, return via home delivery or [diy.com](#).
Contact us on 0333 014 3357.

Lines are open 8am-8pm Monday to Saturday and 10am-4pm Sunday.
Email us at [home.delivery@b-and-q.co.uk](#)
Write to us at B&Q Customer Services Centre, North Avenue, Clydebank, West Dunbartonshire, G81 2NT.

Alternatively, return your items to your local B&Q store
You'll need to take the product, your receipt/sales advice and the debit/credit card you used for payment with you.

Contacts

If you would like to leave feedback about your experience in our stores please let us know.
