GoodHome

GoodHome renovation paint

We believe a comfortable home is one built around your personal preferences, and at the same time respecting the character of the house itself.

From tiles to furniture and kitchen cabinets, our renovation paint brings a new lease of life to tired surfaces around your home.

Our GoodHome paint comes in a carefully selected range of colours so whatever you've got in mind, we've got a high quality finish paint for you.

It's a great alternative when renovating your kitchen, bathroom or other interior surfaces as you don't have to pay for replacements. The paint is designed to be easy to use, and there's no priming needed beforehand. We've made sure the ultra hard-wearing and durable formulas will leave the finished result lasting for longer.

Floor: multi-surface paint
north pole*, satin
Wall: walls & ceilings paint
north pole, silk

*north pole is our pure white colour

multi-surface paint

This all-in-one durable paint is easy to use and doesn't even need priming. It can be used to give cabinets, furniture, radiators, wall panelling, tiles and wood or laminate floors a refresh.

Create a harmonised look across your home by using multi-surface paint in coordination with GoodHome wall paint. It is hard-wearing, stain resistant and easy to clean. It can even be used on worktops if you use lacquer afterwards.

multi-surface durable paint

apply the perfect finishing effects

Complete your project by adding a personal touch to your painted surface or by sealing them to ensure your finish lasts for longer.

furniture finishing wax

Clear wax

- Nourishes and protects your wood surface
- Seals your painted finish
- Stain resistant and easy to clean

White, antique, silver and gold wax

- Create effects or pick out finer details in your furniture

furniture durable lacquer

- Provides a hard-wearing protective layer on your newly painted furniture
- Wipeable and protects against knocks and scratches
- Matt or satin finish

furniture chalky finishing paint

- Create a shabby chic finish
- Highlight the finer details of your furniture or interior mouldings

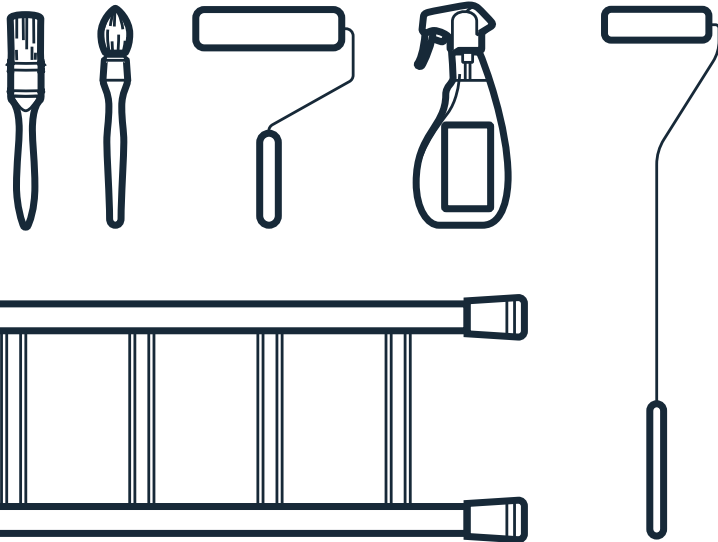

furniture glitter

- Add to furniture paint to create a sparkle effect
- Create feature or statement pieces of furniture

Wall: walls & ceilings paint, north pole, matt
 Dressing table: furniture paint, ikoma, flat matt with matt furniture lacquer
 Drawers: furniture paint, santa cruz, metallic

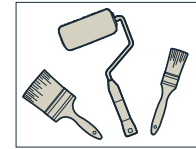

don't forget your painting tools

- Dust sheets
- Masking tape
- Sugar soap
- Stirrer
- Roller tray or paint kettle
- Brush for grooves
- Roller for flat surfaces
- Round brush for details
- Gloves
- 180 grit sandpaper
- Knotting solution to seal bare wood

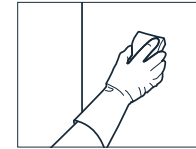

how to complete your project

Our top tips for every renovation paint project are:

1 Get the right tools for your project

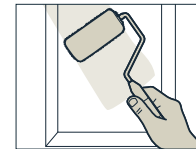

2 Wash the surface with sugar soap, rinse thoroughly, and let it dry before painting

3 Always follow the instructions. Don't forget to mix in the additive where appropriate as this will ensure your paint performs for the task intended and gives you a long-lasting finish

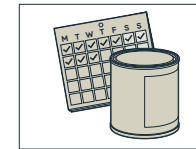

4 Scoop from the bottom and stir the paint thoroughly to ensure all pigments are mixed in

5 Apply at least 2 coats and wait for the specified drying time for the best finish

6 Protect your flat matt furniture paint with GoodHome wax or lacquer. GoodHome multi-surface lacquer can also be applied to give extra protection to heavily used surfaces

7 Some paints take 10 days to fully cure. Your surface may seem touch dry but during this time treat your new paintwork with extra care, gently wiping any spills or liquids from the paint immediately

top tip!
Finish painting with light vertical upward strokes to prevent paint dripping
