

Sketch

Use this grid sheet to sketch out the placement of the windows and doors of your property. It might be an idea to use a pencil in case you need to rub anything out.

Check

Here's just a few key things to check:

Have you included all windows and doors?

☐

Have you shown which way your windows and doors open?

☐

Have you measured in centimetres?

☐

Don't forget

Bring your completed sketch with you to your planning appointment.
